## Opis produktu

## **Blackmagic URSA Studio Viewfinder**

## Turn your URSA Mini into the ultimate live production camera!

Now you can turn URSA Mini into a professional live production camera by adding the all new URSA Studio Viewfinder! Unlike traditional studio cameras which are based on simple video imaging technology, URSA Mini is a true digital film camera combined with full professional studio camera features. You get talkback, tally and remote camera control, plus you can add the amazing Blackmagic URSA Studio Viewfinder to get a professional studio camera user interface. The studio viewfinder features a bright 7" screen that features a large easily viewable tally light, control knobs, large grab handles, sun shade, variable tension articulated mount and more!
